

The 14th NFFT2027SS_PARADOX AI Fashion Movie Exhibition Officially Opens! Unveiling the Latest Visuals from 30 Top Global AI Creators

NFFT "New Future AI Fashion Technology" — What is the new future of AI and fashion shaped by 30 world-renowned AI creators?

TOKYO, JAPAN —NFFT Founder : Miho Kinomura, the **"NFFT2027SS_PARADOX" AI Fashion Movie Exhibition** is proud to announce its official opening. Launched in 2022, the NFFT (New Future AI Fashion Technology) project marks its 14th edition, drawing significant attention both domestically and internationally. This digital AI fashion movie exhibition showcases the latest original video works by 30 globally active AI creators at SHIBUYA SACS GALLERY.

Exhibition Concept & Highlights

The theme **"PARADOX"** explores how sleek digital technology merges with the raw, mystical, and natural world to awaken new aesthetic truths, challenging traditional cyber-future clichés. The full exhibition details, including the specific quote *"No matter how flawless AI becomes, we cannot escape this imperfect, primitive, and beautiful reality of Earth,"* can be found in the referenced document.

Key collaborations include the interactive AI content "My Mascot" by BB Media Inc., a phygital dragon-inspired fashion collaboration with Katayama Bunzaburo Shoten Co., and student works from the Jikei Gakuen Group exploring "Earth (Nature) and Future Lifestyles."
