

English Press Release

NFFT2025_AW Neo-Heritage AI Fashion Movie Exhibition

From May 28 to June 1, 2025, at Takanawa Gateway City, the 9th edition of the renowned NFFT "New Future AI Fashion Technology" project will be held, featuring 34 AI creators from around the world. Organized by STUDIO D.O.G GK, & TYO Inc, Founder Miho Kinomura this exhibition continues to attract significant attention both domestically and internationally.

The event showcases the latest original works by 34 leading AI Prompt Directors and AI Filmmakers worldwide. All pieces are produced using cutting-edge AI technology, with each video lasting under two minutes.

This year's main theme, "Neo-Heritage" (Bridging the Past and Future), reflects each creator's unique worldview and AI fashion expression. The visuals and music are crafted with the latest AI tools, delivering a dynamic and innovative visual experience. The works will be exhibited on digital monitors and physical displays. Additionally, they will be showcased at the SSFF & ASIA 2025 Creator Meetup Project, further emphasizing the event's significance in exploring the future of AI and fashion.

NFFT2025_AW Neo-Heritage Sponsors Introduction

TYO Inc.

Since supporting NFFT from its inception in 2022, TYO has been actively involved as a committee member. Together with STUDIO D.O.G GK, we have continued to back digital creators and artists through various events. Last year, we signed a strategic partnership, and we already have a proven track record of utilizing generative AI in advertising videos. In 2025, we are strengthening our collaboration to expand AI technology application beyond advertising, aiming to assist a wide range of clients. TYO has also launched an internal AI R&D project, with team members Mai Nonomura and Kaho Nakamura participating as AI creators. More information can be found at <https://tyo.co.jp/>

Jikei Gakuen Group

Rooted in the principles of practical education, human education, and international education, Jikei Gakuen Group operates over 80 educational institutions nationwide, including Jikei Medical Science Graduate University in Osaka, and specialized schools. They focus on industry-academia collaboration, nurturing those with rich "creativity" capable of giving "dreams" and "impressions." They have trained over 500 professions and produced

more than 250,000 graduates domestically and internationally. A special industry seminar, "Generative AI Creative Seminar" (with guest instructor Miho Kinomura), was launched last year, and the best works from participating students will be showcased at this event. More details are available at

<https://www.jikeicom.jp>

Toshima Co., Ltd. / VIRTUAL STANDARD

Founded in 1841, Toshima has expanded its business scope in response to evolving trends over 180+ years. They handle comprehensive supply chain services—from global raw material procurement to final product planning, production management, and delivery for the fashion industry. As a company proposing sustainable lifestyles, they develop eco-friendly materials and functional products aligned with Society 5.0, and through investments and partnerships with tech ventures, they are advancing services utilizing information technology. Since 2019, they have promoted the stance of "MY WILL," emphasizing their corporate philosophy. More information is available
